Dear Mr Weber

Please find enclosed a copy of the October 1991 U S Department of Energy (DOE) Rocky Flats Office (RFO) 'Final Habitat Survey Report' for the proposed South Interceptor Ditch (SID) project at the Rocky Flats Plant. The document was prepared with guidance from the Golden Colorado office of the U S Fish and Wildlife Service (FWS) regarding compliance with the Migratory Bird Treaty Act (16 U S C 703 712) and the Fish and Wildlife Coordination Act (16 U S C 661 666c). It is the understanding of DOE RFO that FWS has statutory authority for both of these statutes while Colorado Division of Wildlife (DOW) has statutory authority for the Fish and Wildlife Coordination Act.

We request that FWS and Colorado DOW review the enclosed document and provide concurrence to DOE RFO as soon as your schedule allows. Please note that the burn permit for the SID from the State of Colorado expires at the end of October 1991. However upon our request the state may extend the permit to the end of November 1991.

If there are any questions or concerns regarding the proposed action or enclosed document please contact Bruce Thatcher of my staff at 966-3532.

Sincerely
